The Maryland Association of Collegiate Directors of Athletics (MACDA) was formed in 1988 by the directors of athletics of Maryland's four-year collegiate athletics programs. The mission of this alliance is to further enhance the intercollegiate athletic experience of all student-athletes. While institutions vary in size and scope, it is MACDA's intent to work together for the mutual betterment of all institutions and their student-athletes regardless of the size or public popularity of the program. On an annual basis, MACDA recognizes all student-athletes that have earned a 3.2 grade-point average or higher. Last year, 1996-97, over 1,400 student-athletes within the state earned at least a 3.2 GPA for the full academic year. In an effort to further assist deserving student-athletes, commencing in the Fall of 1998, MACDA will begin awarding three post-graduate scholarships on an annual basis.
